Description of Chapter:

FCC ACM Chapter – A Chapter for Professionals of Computing Machinery. The chapter sets the tradition of bringing innovation and creativity to events that relate to science and computing and continues to gather educators, researchers and professionals to share resources and address the issues of 21st Century.

There are total of 426 bachelors enrolled in Computer Science and at FC College.

Our chapter consists of 20 members and they belong to the following majors:

- Computer Science = 18
- Business Studies = 1
- Psychology and Sociology = 1

Outstanding Recruitment Program

Back in November 2016, an announcement spread the news of something innovative and extraordinary amazing coming on the way. It was the announcement of the establishment of FCC ACM Chapter.

Mr. Zeeshan Haider Malik – a technophile, ingenious, newfangled and quick-witted personality from Computer Science Department was given the honor of being the 1st Chapter Sponsor of FCC ACM Chapter. Mr. Zeeshan conducted an information session on history and importance of ACM. It was an open house session. He, then, made the call for selecting Chapter Officers and Chapter Members.

Mr. Zeeshan asked all candidates to submit their resume along with cover letter within the time duration of 1 week. A large number of applicants applied. The next step taken was shortlisting the applicants on the basis of CGPA and past experiences.

The higher positions were reserved for the applicants from the Senior Year and the others were divided among Juniors and Sophomores. This was done this way so that the students in the Senior Year can utilize their past experiences and learnings and come up with better ways of running the Chapter. On the other hand, Junior and Sophomore candidates could learn more meanwhile and when they enter the senior year, they would be in a better position to run the Chapter.

After shortlisting the applicants, the next step was interviewing the shortlisted candidates. The interviews were conducted by Mr. Zeeshan Haider Malik along with Dr. Atif Alvi – Head of Department of Computer Science. The interviews lasted for hours. It was tiring job to select the gems for the Chapter.

A few days later, results were announced and the selected candidates were congratulated on being selected as part of FCC ACM Chapter. The chapter in total includes 25 members.

The inauguration ceremony was organized on 8th December, 2016. Every council member promised to give their best to the Chapter. It was a profligate opening ceremony, having gathered a massive number of students and faculty members. It had a sociable taster to ACM and its work with hospitable wishes from fellows and an atmosphere jam-packed with entertainment.
